

Senior Engineer

Applications are being accepted for the position of Senior Engineer in the Customer Section of the Engineering Department. The purpose of this position is to perform responsible engineering, administrative, and related work using independent judgement, initiative and originality. May oversee, schedule and coordinate the activities of an engineering team. Perform other related duties as required.

Position Requires:

- Bachelor's degree from an accredited institution in engineering in an accredited engineering curriculum as defined by the rules of the Tennessee State Board of Architectural and Engineering Examiners, Chapter 120-1 is required. The vacancy within the various sections will determine the specialty related to the type of engineering degree.
- Four years of engineering experience including two years of experience in an electric utility or electric utility related industry is required.
- Must have a valid Class D driver's license from state of residence in accordance with state law.

Minimum rate of pay is \$40.57 per hour to maximum rate of \$57.32 per hour along with a competitive benefit package. Applications must be submitted online at www.nespower.com.

Deadline for applications is November 21, 2017.
