

Conference on

# EV CHARGING INFRASTRUCTURE SOUTH

July 25-26, 2023 | JW Marriott, Austin, Texas

Hosted by:

Global **Transmission** Report  
Information and analysis on the global electricity transmission industry

**REGLCBAL**  
Analysis and perspective for CXOs

# AGENDA (Tentative)

## Day 1: Tuesday | July 25, 2023

---

08:00-08:50	<b>Reception and Registration</b>	13:00-14:00	<b>Lunch and Networking</b>
08:50-09:00	<b>Welcome Remarks by Global Transmission</b>	14:00-15:00	<b>Infrastructure Needs and Developers' Perspectives</b>
09:00-10:30	<b>Keynote: State Programs and Plans</b> <ul style="list-style-type: none"><li>• Plans and programs to ramp up EV charging infrastructure across the Southern region</li><li>• Addressing EV adoption barriers – making EVs easier to afford and charge</li><li>• Key developments over the last year</li><li>• Addressing the challenges and issues of meeting the needs of all stakeholders</li><li>• State initiatives to build a resilient, equitable and accessible charging infrastructure</li></ul>		<ul style="list-style-type: none"><li>• Unique challenges in building charging stations in the Southern region</li><li>• Learnings from the experiences of leading charging infrastructure developers</li><li>• Meeting equity and resilience objectives</li><li>• Building an EV charging infrastructure that is both stable and functional</li><li>• Addressing interoperability and standardization challenges</li><li>• Strategies to scale up operations and infrastructure</li><li>• Meeting customer needs for fast, reliable, and affordable charging</li><li>• Perspective on new partnerships that are emerging</li></ul>
10:30-11:00	<b>Coffee and Networking</b>	15:00-16:00	<b>Ensuring Equitable Access</b>
11:00-12:00	<b>Advancing Clean Transportation</b> <ul style="list-style-type: none"><li>• Accelerating investment to meet reliability, efficiency, and equity objectives</li><li>• Opportunities for public-private partnership in state and federal programs</li><li>• Innovative business models and best practices</li></ul>		<ul style="list-style-type: none"><li>• Regional coordination for building an equitable yet viable EV charging network</li><li>• Expanding charging to include remote locations and rural communities</li><li>• Reducing barriers for all kinds of customers including low-income households</li><li>• Role of public-private partnerships and continued investments</li></ul>
12:00-13:00	<b>Electrifying Transportation - Municipal and City Perspectives</b> <ul style="list-style-type: none"><li>• Role of cities and municipalities in electrifying transportation and in advancing charging infrastructure development</li><li>• Meeting the need for charging public transport</li><li>• Engaging with the utilities</li><li>• What could work and identifying those unique solutions</li></ul>	16:00	<b>End of Day 1</b>

*Note: This is a tentative agenda. Timings and topics of some sessions may change as we move closer to the date of the event.*

## Day 2: Wednesday | July 26, 2023

---

08:00-08:50 Reception and Registration

---

08:50-09:00 Introduction to Day 2 by Global Transmission

---

09:00-09:45 **Strategy for Advancing Charging**

---

- Business challenges in developing a commercially viable EV charging network
  - Strategies to scale operations while maintaining resilience
  - Meeting standardization requirements and solutions
  - Maximizing site utilization and minimizing costs
  - Preparing for flexibility in the future
- 

09:45-10:30 **Emerging Opportunities – V2G and RE Integration**

---

- Technologies for smart charging
  - EV charging management platforms
  - Future requirements and solutions to manage emerging EVSE demands
  - Emerging opportunities such as V2G
- 

10:30-11:00 **Coffee and Networking**

---

11:00-12:00 **MUD and Workplace Charging Solutions**

---

- Challenges of charging EVs at multi-unit dwellings (MUDs) and workplaces
  - Exploring feasible solutions
  - Addressing pricing issues
  - Ownership, financing and legal considerations
  - EV Charging as a real estate asset
- 

12:00-13:00 **Utility Initiatives**

---

- Utility programs in planning the EV charging infrastructure
  - Meeting equity and resiliency requirements
  - Preparing for flexibility in the future
  - Meeting tariff and regulatory objectives
  - Case studies of successful programs
- 

13:00-14:00 **Lunch and Networking**

---

14:00 **End of Conference**

---

*Note: This is a tentative agenda. Timings and topics of some sessions may change as we move closer to the date of the event.*
